		BECKET,
		_ 2 -
25X1		
	2.	In early March, radar facilities had been installed in Tientsin, Tak'u (N 38-59, E 117-41), and at Hsinkang (2450/3263), a new harbor in the Takuk'ou (N 39-, E 117-) area.
25X1		1. Comment: As of mid-January, the locomotives were camouflaged. It was not known whether or not the camouflage would be retained after the exercises.
25X1		2. Comment. This battalion arrived in Tientsin on approximately 10 January. In mid-January, the battalion had eight guns, which were visible to pedestrians. It was probable that the personnel and the weapons of the battalion would be transferred to the suburbs of Tientsin following the exercises.
25X1		3. Comment. In mid-March 1953 a radar apparatus sweeping in an arc from the southeast to the northeast in a seaward direction, was located one half mile southwest of North Mound in Taku, according to available information
